

Internationale mogelijkheden IFMSA

Trainingen: Deze weekenden/weekjes kunnen veel van elkaar verschillen. Veel (zoals onderstaande voorbeelden) hebben een thema waarin trainingen gegeven worden. Daarnaast is het vaak ook mogelijk om zelf trainer te worden tijdens een weekend om later de dingen die je leert tijdens zo'n weekend (of later) naar andere leden over te brengen.

ANEMF-France HIV Education and Advocacy Training (HEAT): Call for trainers and participants

ANEMF-France is more than happy to invite you to their first sub-regional training, a HEAT: HIV Education and Advocacy Training!

Along with a group of curious, sharp-minded students from all over the globe, be prepared to learn more about every aspect of this world-wide challenge that is HIV/AIDS, including clinical information, prevention methods, psychological care and a lot more!

The beautiful city of Besançon, in which the event will take place, will undoubtedly charm you with its numerous museums and cultural attractions, its relaxing gardens, its historical center and, last but not least, its famous Citadelle!

Training Disaster Medicine Trainers (TdmT)

Do you dream about working in disaster settings? Are you interested in playing an active role in emergencies and disasters? Do you want to learn to know how to deliver healthcare when the needs exceed the resources?

In close cooperation with CRIMEDIM, the Research Center in Emergency and Disaster Medicine at the University of Piemonte Orientale, Novara, Italy, IFMSA will once again offer the annual Training Disaster Medicine Trainers in 2020.

The course consists of a three months online phase and a one-week residential course in Novara, Italy. During the residential course, there will be classes with both conventional and innovative teaching strategies including computer-based and live simulations. Students will learn from experts of the emergency and disaster medicine sector.

At the end of the program, you will have gained extensive knowledge about disaster medicine and become a certified IFMSA-CRIMEDIM Disaster Medicine Trainer. This will give you the skills and knowledge to deliver disaster medicine courses to other medical students within your communities and globally. TdmT graduates are part of a global network of medical students with the skills and knowledge of delivering a well-planned training course on disaster medicine. Our aim is to empower medical students with knowledge and skills in the field of disaster medicine, to inspire them to learn more and to give them the opportunity to share what they have learnt to their peers.

Summer/winter schools

SCMSA 23rd Summer School on Tropical Medicine & Infectious Diseases

Summer School Sexual and Reproductive Health + Migration and Health

Each summer, we welcome students from all over the world to the beautiful city of Ghent, Belgium. We organize a 12-day educational program, complete with various social and cultural activities. Applicants can choose between two different subjects; 'Health & Migration' and 'Sexual & Reproductive Health & Rights'. Both Summer Schools will take place from the 5th until the 16th of July 2020.

Our goal is to provide an unforgettable experience by broadening your view on the subject as well as to introduce you to the finest Belgium has to offer. The mix of nationalities of the participants guarantees an interesting multicultural setting, resulting in long-lasting friendships.

You will attend interesting lectures taught by renowned doctors and professors connected to Ghent University as well as other international institutions. Next, you can enjoy the mesmerizing green of our parks and have your breath taken away by our monumental cathedrals, churches and medieval dungeons. Discuss the day's lectures to the tunes of local musicians and invigorate body and soul with our peerless variety of beer and exquisite Belgian cuisine. Education and pleasure have rarely -if ever- marched this closely in step. More information on <https://summerschoolghent.com/>

Mogelijkheden voor IFMSA leden (vaak als deel van een delegatie):

European Congress on Clinical Microbiology and Infectious Diseases (ECCMID)

European Congress on Clinical Microbiology and Infectious Diseases (ECCMID) which will be held in Paris, France between 18th and 21st of April 2020. This is an amazing chance for infectious diseases enthusiasts to be part of the biggest gathering of professionals in this area and get full financial support in order to pursue your passion.

ECCMID, as the world's premier Clinical Microbiology & Infectious Diseases event, brings together experts from many fields to present their latest findings, guidelines and experiences to an audience of over 12,000 participants. This year, the Programme Committee has developed a multi-faceted program incorporating keynote lectures and oral sessions, as well as interactive workshops, meet-the-expert sessions, and a wide range of symposia. ECCMID will take place in Paris, France, from 18 - 21 April 2020.

UNESCO Chair in Bioethics 14th World Conference on Bioethics, Medical Ethics and Health Law

We are pleased to invite you to join the IFMSA delegation to the 14th World Conference on Bioethics, Medical Ethics & Health Law of the UNESCO Chair in Bioethics. This is the largest conference offering a platform for the exchange of information and knowledge as well as discussions on the latest advancements in medical ethics, bioethics including ethics teaching around the world.

The delegation will be responsible for the preparation and coordination of IFMSA sessions at the 14th World Conference on Bioethics, Medical Ethics & Health Law as well as general networking for improved student representation with UNESCO Chair on Bioethics.

53rd Session of the UN Commission on Population and Development (CPD53)

A Population Commission was established by the Economic and Social Council in its resolution 3 (III) of 3 October 1946. In its resolution 49/128 of 19 December 1994, the General Assembly decided that the Commission should be renamed the Commission on Population and Development. In the same resolution, the Assembly decided that it, the Council and the Commission, should constitute a three-tiered intergovernmental mechanism that would play the primary role in the follow-up to the implementation of the Programme of Action of the International Conference on Population and Development and that the Commission, as a functional commission assisting the Council, would monitor, review and assess the implementation of the Programme of Action at the national, regional and international levels and advise the Council thereon.
